Poder Legislativo del Estado

Dr. Fernando Toranzo Fernández, Gobernador Constitucional del Estado Libre y Soberano de San Luis Potosí, a sus habitantes sabed: Que el Congreso del Estado ha Decretado lo siguiente:

DECRETO 398

La Sexagésima Legislatura Constitucional del Estado Libre y Soberano de San Luis Potosí, Decreta

EXPOSICIÓN DE MOTIVOS

El presente ordenamiento contempla elevar la totalidad de los ingresos en un 9.9 por ciento, en comparación con la Ley de Ingresos del ejercicio fiscal 2013, representado por más de 3,063 millones de pesos. Es importante mencionar que los ingresos que genera el Estado se retraen en un 6.5 por ciento, debido a la ampliación del subsidio en el impuesto sobre tenencia, y que en el ejercicio por iniciar no se lleva a cabo canje de placas.

Por lo anterior, la estructura de los ingresos que espera recibir el Estado para el ejercicio fiscal 2014 están conformados de la siguiente manera: 92.6 por ciento provenientes de recursos federales y 7.4 por ciento de los ingresos generados por el esfuerzo recaudatorio del Estado. En comparación con el ejercicio inmediato anterior los ingresos provenientes de recursos federales representaron un 91.1 por ciento y los ingresos estatales un 8.9 por ciento.

Los ingresos federales que el Estado estima recibir por concepto de participaciones ascienden a 10,960 millones de pesos siendo que en 2013 se proyectaron 9,699 millones de pesos en este mismo rubro.

Por concepto de incentivos por convenios, se esperan obtener 692 millones de pesos, 96 millones menos que en el ejercicio anterior donde se estimaron 788 millones de pesos derivados del Convenio de Colaboración Administrativa en Materia Fiscal Federal, celebrado por el Gobierno del Estado con la Secretaría de Hacienda y Crédito Público.

Por concepto de Fondos de Aportaciones Federales correspondientes al ramo 33, se prevé recibir la cantidad de 14,692 millones de pesos, presentando un crecimiento del 6.7 por ciento, representado por 916 millones de pesos, en

comparación con el ejercicio inmediato anterior en el que se obtuvieron 13,776 millones de pesos.

Derivado de la propuesta de modificaciones a la Ley de Hacienda para el Estado de San Luis Potosí, en la que se incrementa en un 0.5 por ciento la tasa del Impuesto sobre Erogaciones por Remuneraciones al Trabajo Personal, se estima un ingreso adicional por 173 millones de pesos los cuales serán destinado al eje número dos del Plan Estatal de Desarrollo 2009–2015, denominado Economía Competitiva y Generadora de Empleos.

En este proyecto de Ley de Ingresos, se ha considerado una inflación estimada del 3.6 por ciento y en esta misma proporción se prevé que será el crecimiento del salario mínimo para 2014, estas premisas sirvieron de base para calcular algunos conceptos de contribuciones estatales.

Para el Ejercicio Fiscal 2014, no se tienen previstos ingresos por concepto de financiamiento, sin embargo, en el caso de que se presentaran circunstancias que favorezcan al desarrollo del Estado o que pongan en peligro la estabilidad social y económica del Estado, se consideraría esta fuente de ingreso.

POLÍTICA DE RECAUDACIÓN

Dentro de los aspectos relevantes que considera el Ejecutivo del Estado para mantener un equilibrio entre la hacienda pública y los compromisos y obligaciones que tiene para cumplir con una adecuada función pública, sin afectar a la ciudadanía con la incorporación de nuevos tributos, es la conducción eficiente de los mecanismos de captación de recursos y la contención permanente del gasto público, buscando mayormente su aplicación en obras de infraestructura y acciones que beneficien a los sectores mayoritarios de la población potosina.

Considerando lo aquí indicado, se dará continuidad a las estrategias aplicadas en el ejercicio inmediato anterior para cumplir con las metas establecidas en este proyecto de Ley; con la incorporación de centros de recaudación a través de tiendas comerciales y otros medios electrónicos.

ARTÍCULO 1o. El Estado de San Luis Potosí, durante el Ejercicio Fiscal del año 2014, percibirá los ingresos provenientes de los conceptos previstos en la Ley de Hacienda y Código Fiscal del Estado, así como los que emanen de las diversas disposiciones federales, por un total de **\$34,039,039,878 (TREINTA Y CUATRO MIL, TREINTA Y NUEVE MILLONES TREINTA Y NUEVE MIL OCHOCIENTOS SETENTA Y OCHO PESOS 00/100 M. N.);** en los montos estimados que se citan a continuación:

29.- SERVICIOS DE SALUD

Como regla general, el monto de cobro se establece en el Nivel 5. Sin embargo, cuando el paciente o los familiares manifiesten que requieren apoyo adicional al respecto, el departamento de trabajo social realizará un estudio socioeconómico y, en función del mismo se establecerá el nivel de cobro que puede ir desde el exento, hasta el nivel 4. En las unidades médicas donde no se cuente con departamento de trabajo social, será responsabilidad del médico titular del mismo, establecer el nivel de cobro. El Nivel 6 se aplicará a los servicios médicos que se presten en función de convenios especiales celebrados con diversas entidades.
